Fig. 11

FIG. 13 is a top-down view of a circular device. The device has a thick outer rim (400) and a central opening. The central opening contains a rectangular component (460) with a textured surface and a small circular feature (465) at its base. Six circular elements (410) are arranged in a hexagonal pattern around the central component. The outer rim has a series of small, rectangular protrusions (430, 438a, 466, 418) along its edge. Various components are labeled with reference numerals: 430, 438a, 400, 410, 466, 465, 460, 418, and 440.
